LAKESIDE PLAYHOUSE

Article number A701.001.00

Do your children love to play outside? The playhouse Lakeside by AXI from the ecological Valley Green series, offers children the opportunity to let their imagination run free. Lakeside is a fun and simple playhouse with a neutral wood look, which makes it perfect for any garden. Children can open and close the windows at Lakeside and enter through a sturdy half door. The Lakeside playhouse is made from organic residual material that looks like real wood, and features FSC 100% wood details.

Dimensions Lakeside playhouse

- Outside dimensions (LxWxH): 135 x 111 x 133 cm
- Inside dimensions (LxWxH): 97 x 89 x 128 cm
- Door dimensions (WxH): 44 x 61 cm

Easy assembly

AXI playhouses are constructed from prefabricated panels, including any windows and door(s). The parts are usually pre-drilled so that the house can be assembled in no time.

SUSTAINABLE ECO- OUTDOOR TOYS

The playhouse Lakeside from the ecological outdoor toy series Valley Green is produced from biological waste. The material called UPB (Universal Performance Board) consists of about 60% rice husk, about 22% rock salt and about 18% mineral oil. It is a perfect alternative to wood, because it has the look and feel of wood.

The natural material possesses unique properties and is 100% recyclable, weatherproof, it does not rot, split or splinter and is also easy to maintain. In addition, the sheet material does not become slippery in damp conditions and is therefore non-slip. In summary, the Valley Green toys are not only super fun to play with, but also very safe for children.
